

PACE is...

Person

- ⇒ What is important to the person (in his/ her words)? – Hear from the person's perspective
- ⇒ Feelings, concerns, questions, preferences
- ⇒ Communication with family, carers, other important people e.g. nursing home staff

Assessment

- ⇒ Continual process of collecting information from point of admission e.g. symptoms, clinical observations, test results, bed end charts, care pathways, care bundles, risk assessments
- ⇒ Identifying & prioritising needs (nursing diagnosis) – **ACUTE** and **EXISTING NEEDS**
- ⇒ How nursing diagnosis affects the person

Think PERSON-CENTREDNESS/
DISCHARGE PLANNING

Evaluation

- ⇒ Review effectiveness of the plan of care
- ⇒ Has the person e.g. improved/ stabilised/ deteriorated/ has the plan of care had the desired effect? – the response of the person
- ⇒ Record a new plan of care, if necessary, based on person's reviewed needs - **ACUTE** and **EXISTING NEEDS**
- ⇒ Record any outstanding care that is to be delivered

Think PERSON-CENTREDNESS/
DISCHARGE PLANNING

Plan of Care

- ⇒ Educate, empower and enable the person
- ⇒ Co-produce plans of care that are safe and effective with consent – **ACUTE** and **EXISTING NEEDS**
- ⇒ Consider the multi-professional team and its contribution
- ⇒ Prioritise when the care is being delivered
- ⇒ Changes to plans of care are led by the changing condition of the person

Think PERSON-CENTREDNESS/
DISCHARGE PLANNING
