

Hannah Montgomery, Staff Nurse – Ward 7B, RVH

Q1: What is your experience of PACE?

I have experienced PACE for 6 weeks now and to begin with was sceptical, with continued practice I have found PACE to be very effective and find I am learning more about patients and their background.

Q2: What difference has PACE made to the patient and you?

It promotes patients centred care. Once PACE completed I find there is less documentation during the day (unless change evident).

Q3: What advice would you give to a ward commencing PACE?

I feel I am improving patient's knowledge by discussing with the patient their care and this improves compliance. To link with Audrey as she is able to lead you in the right direction. Trial and error!
