

Richel Lobregas, Staff Nurse, Ward 6B, Ulster Hospital

Q1: What is your experience of PACE?

I personally find it helpful in my documentation. Holistic approach in assessing patients needs and plan of care. More detailed information in patient care.

Q2: What difference has PACE made to the patient and you?

It made a difference in a way that it addressed patients main/present issues/ concerns or complaints and had my action plan in place and evaluation of the care that has been achieved.

Q3: What advice would you give to a ward commencing PACE?

I would recommend to use it as a guide or framework for nursing documentation as I find it effective especially in handover of patients.
