

Senior Staff Nurses and Practitioners – Activities

There are lots of activities that a Team Leader does every day which can be delegated under supervision to nurse or midwife or shadowed.

This should help you think about:

- The knowledge and skills you need to be a Team Leader
- The areas within your knowledge and skills which you need to develop

Examples of these activities might include:

- Completing the off duty or duty roster
- Organising annual leave requests
- Ordering and maintaining stock levels
- Developing areas of nursing practice
- Implementing evidence based practice
- Liaising with members of the wider multidisciplinary team on behalf of the ward nursing/midwifery team
- Monitoring the quality of practice/service provision
- Shadowing a Team Leader at an organisational or departmental meeting
- Carrying out a health and safety risk assessment
