

MSc/PG DIP/PG CERT

BUSINESS IMPROVEMENT

INTRODUCTION

The MSc is a work based learning programme, where students will study improvement methodologies whilst increasing their capacity to implement change and improvements across professional and organisational boundaries. The programme provides an excellent platform for aspiring or substantive Senior Leaders and Managers to enhance and develop improvement and strategic leadership skills.

This MSc aims to provide you with a framework of learning that develops your personal and professional capabilities whilst supporting a culture of improvement. As Organisations set about rebuilding services, students will be encouraged to consider the innovative approaches to service delivery in response to the pandemic, and consider how these can be further developed in the workplace.

Students will develop skills to help identify and explore problems and opportunities in order to deliver solutions that will ultimately improve our current health and social care system.

Co-designed by academic and clinical experts, the programme aims to promote the application of scientific principles and theory in day-to-day practice

MSc/PG DIP/PG CERT

BUSINESS IMPROVEMENT

COURSE OVERVIEW

Students can choose to complete this part-time qualification over three years or two year fast-track

Year 1 - Modules

- Operational Excellence
- Quality Management & Process Improvement
- Leadership & Change

Year 2 Modules

- Innovation Management
- Improvement Through People
- Financial Decision Making

Year 3 - Transformation Project

ENTRY REQUIREMENTS

Applicants should hold a Degree; however, we recognise that students may have acquired significant learning from previous educational and life/work.

These students will be required to submit an additional piece of written information and have a discussion with the Course Tutor to assess suitability.

TEACHING AND ASSESSMENT

As a result of Covid-19 and social distancing requirements, we are intending to teach this course online until restrictions have eased. Students will be taught using a range of methods such as online workshops, tutorials, self-directed study and discussion forums.

”

"I have found the course challenging and fascinating. It has really transformed how I think about my work and highlighted the inefficiencies in some working practice. Really useful."

Barry Rooney
Health Development
Worker for Prisons

MSc/PG DIP/PG CERT

BUSINESS IMPROVEMENT

”

"I would highly recommend the MSc in Business Improvement. It has given me additional improvement skills in leading through change and I am better able to understand my own leadership style... excellent networking opportunity and is taught in a very interactive and enjoyable way."

Mairead McMullan, Project Manager, Clogher Valley Sure Start
