

Aimee Kelly, Staff Nurse, Ward 6B, Ulster Hospital

Q1: What is your experience of PACE?

I feel my experience of PACE is mostly positive. It removes the need for care plans and continually reviews need for care daily which help to remove unnecessary tasks.

Q2: What difference has PACE made to the patient and you?

- *I feel PACE helps to structure my day*
- *It helps to get rid of further documentation such as care plans*
- *Helps to make sure all care needs are recorded*
- *Makes handover more detailed – improving patient safety*

Q3: What advice would you give to a ward commencing PACE?

Take a while to get used to but very beneficial in the long run. If you struggle with the order of care as long as it is documented structure will improve with time.
