UPDATES, KEY PUBLICATIONS, EVENTS

What is your verdict?

Each month, Nursing Times considers a real life case heard by the Nursing and Midwifery Council’s Fitness to Practise panel. This month the case presented is: what should happen to a nurse whose inaccurate records and inaction led to a patient’s death? Go to www.nursingtimes.net/youarethepanel to check what really happened and see if your decision matched that of the Fitness to Practise panel.
