

This log is used to record and track NIPEC Corporate Risks for 2018-2019.

Risks are things that may or may not happen in the future that could have an effect on the organisation's success. This log includes all risks identified, including those that have passed and are no longer a threat, those that have been prevented or mitigated, and those that have become closed. As this is a permanent record of NIPEC's risks, no risk information is deleted from this log:
